

The Adjustable Office

Redefining workspaces for the 21st Century. Join the movement!

Traditional office environments have a “one-size-fits-all” approach. We’re redefining the 21st century workspace with an emphasis on **health, productivity and affordability**. See the difference it can make for your employees and the boost it will bring to your bottom line.

Healthy

Facilitate healthful workspaces

- Manage healthcare premiums and other expenses associated with computer-related stresses, strains and fatigue. Well-designed workspaces minimize absenteeism and promote job satisfaction
- Easily, simultaneously lift LCD screens or laptops to match body positioning, providing unsurpassed ergonomic comfort
- On-demand sit-stand workstations—improve your energy and productivity by standing or sitting as you work, and then switch positions whenever you choose. Standing a little more each day:
 - + Burns extra calories
 - + Tones muscles
 - + Improves posture
 - + Increases blood flow
 - + Ramps up metabolism

Productive

Uncover the secret to sustained productivity

- Studies report the benefits of multi-monitor workspaces for employees and employers alike. With an Ergotron multi-monitor display mount, your staff can experience productivity increases of 20–30%, often followed by improvements in overall job satisfaction
- Adjustable offices can raise performance for a diverse group of workers:
 - + Temporaries (adaptive desktops)
 - + Telecommuters, guests, visitors (work pods)
 - + High-intensity computing users (multi-monitors)
- Free up resources to get more done. Our products adapt to virtually any location and make demanding IT installations easier and more efficient

Affordable

Reallocate investments, realize measurable ROI

- New builds or redesigns are a snap. Save on labor, equipment and maintenance costs associated with these disruptive projects
- Make changes to workforce or business strategies faster. Our solutions support and extend the investments you make in operations, personnel and IT
- Consult our experts. We can help:
 - + Ease facility developments and modifications
 - + Simplify IT plans and desktop refreshes
 - + Free up valuable resources
- Play with the possibilities—try our Payback Calculator at payback.ergotron.com
