- *Pair it with an LX LCD Arm to create a complete workstation*
- *Five-year warranty*

Ergotron®

LX Wall Mount Keyboard Arm

More motion. Less effort. Feel the difference.

Effortlessly position a keyboard to the most comfortable typing position, seated or standing. The LX Keyboard Arm mounts directly to any wall while providing vertical and side-to-side motion. When not in use, simply push the keyboard and fold it up to within 4.6 inches of the wall. This is the perfect accessory for space-constrained areas. Pair it with an LX LCD Arm to create a complete workstation.

Ergotron's LX Keyboard Arm includes Constant Force (CF™) patented lift-and-pivot motion technology. With a light touch of your hand you can easily lift, swing, tilt or turn your keyboard.

- Increase data-entry comfort—help reduce arm, shoulder and wrist strain
- Reposition your keyboard with just a touch
- There when you need it, gone when you don't—folds up and back
- Excellent price performance
- Companion product to LX Wall Mount LCD Arm—same sleek design
- Arm extends/retracts keyboard up to 25.6 inches (65 cm)

At left, LX Keyboard Arm and LX LCD Arm shown folded back against Ergotron Wall Track

Patented CF lift-and-pivot motion technology is utilized within body of arm

At right, cables are guided along underside of arm for a clutter-free work area

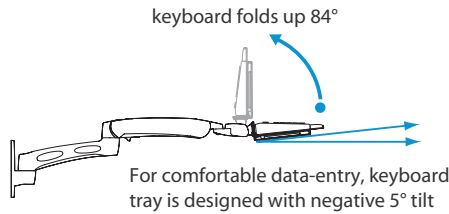

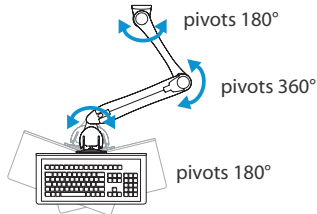

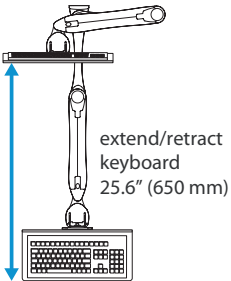

At left, LX base being mounted to Wall Track, a common healthcare solution

LX Keyboard Arm can be used without its extension

Comes complete with keyboard tray, mouse pad, mouse pouch and gel wrist rest

Range of Motion

Basic Specifications
