PARTICIPANT FEEDBACK

- Less toggling with dual monitor; no need to toggle excessively when two applications open on two different screens.
- Access to viewable information at once. The information that's readily viewable helps speed.
- Comparison of information that's easily checked from scanning across screens.
- Less idle with the dual monitors. Able to run a promo and research a phone call at the same time which allows quicker response.
- Feels there's more ergonomic comfort in moving mouse and moving head side to side.
- Copy/paste easier.
- Limit errors because having tool on one screen and back up open on other screen.
- Accounting is much easier with dual monitor.
- One rep complained of sore neck daily until she began using the dual monitor set up.
- Would not go back to a single—have noticed significant difference in speed and productivity.
- Posture seems better.
- Less stress with dual monitors because you don't have to toggle back and forth and have concern if you grabbed the correct data.
- Dual monitor great for price changes and tracking spreadsheets.
- Eye level is better because of the stand holding two monitors.
- Don't feel humped over.

*Results reported from Call Center/Customer Care department. After seeing these results, customer decided to deploy dual displays on Ergotron height adjustable stands across other departments.
