

Collaboration in the Post-Pandemic Workplace

Employees are seeking new opportunities for collaboration and connection in the post-pandemic workplace, with 85% of employees motivated to go into the office to rebuild team bonds.

As companies settle into more flexible work models, they need adaptable ergonomic solutions to facilitate the spaces and activities that support employee collaboration, productivity and connections.

84%

of employees would be motivated to go into the office if they could socialize with coworkers

74%

of employees would go to the office more frequently if they knew their "work friends" were there

73%

of employees would go to the office more frequently if they knew their direct team members would be there

[Microsoft Work Trend Index Report](#)

Ergonomic, height-adjustable solutions allow employees to easily position their workstations and monitors for group work or information sharing.

PRODUCT SPOTLIGHT

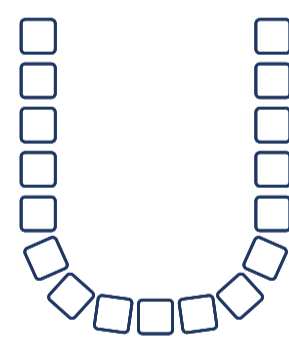

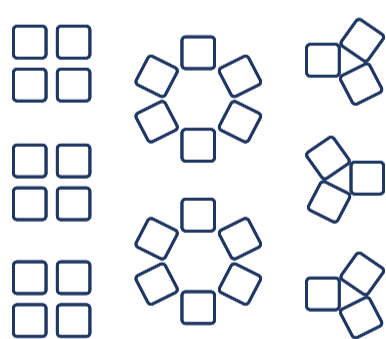

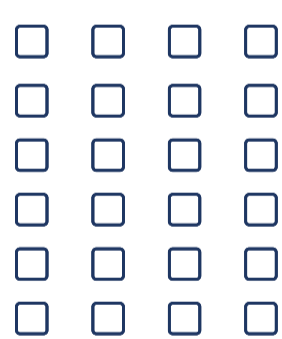

TRACE™ Dual Monitor Mount

This award-winning monitor mount allows employees to easily adjust their workstations between individual work and collaboration using Constant Force™ technology.

- Intuitively adjusts between tasks and postures to encourage movement and collaboration
- Premium 15-year warranty and award-winning design
- Multiple color and mounting options

Mobile desks let employees stand and collaborate anywhere with a coworker or larger team before moving to a quiet area to tackle individual work.

Mobile desks and workstations

provide employees the freedom to collaborate anywhere in the office. They easily arrange into different configurations and can be stored when not in use to reclaim valuable work area.

Ergotron Mobile Desk:

- Easily adjusts from sitting to standing
- Travels between individual workspaces, conference rooms and common areas
- Stores to reclaim space
