

# Improving Documentation Pain Points for Nurses

Healthcare organizations can improve the nursing experience by tackling the most time-consuming part of their shift: charting and documentation.

By improving this workflow with ergonomic principles and equipment that address top documentation pain points, healthcare leaders can help enhance nurses' physical and mental health.

**3**  
HOURS

According to a survey by Medscape, administrative tasks can add up to three hours to a nurse's 12-hour shift.

**95%**

of healthcare providers surveyed by Ergotron stated that having better, more ergonomic equipment could improve their health and well-being.

## DOCUMENTATION PAIN POINTS FOR NURSES

Inefficient workflows

Limited access to supplies and technology

Staff shortages and long hours of charting

Poorly designed equipment

## SELECT ERGONOMIC WORKSTATIONS THAT:

Can accommodate documentation and charting workflows with ease

Enable fast, easy, and safe interactions with critical technology

Give convenient, intuitive access to supplies and peripheral equipment

## PRODUCT SPOTLIGHT

NIGHTINGALE AWARDS 2022 Gold Award

### CareFit™ Combo Wall Workstation

Supports nurse-patient connections, caregiver comfort and uptime by enabling efficient documentation at the point of care.

- Flexible workflows
- Comfortable documentation
- Neat workspace
- Supports uptime
- Warm aesthetic
- Quality construction
- Multiple configurations and accessories

### CareFit Pro Medical Cart with Drawers

Gives nurses the space for everything they need in a flexible design that can adapt to changing needs and workflows.

- Customizable drawers, lighting and more
- Offers full sit-to-stand adjustment
- Designed to last
- Adapts to future workflows
- Simplifies maintenance with remote fleet management

### StyleView® Cart with LCD Pivot

Meets the needs of multiple workflows with a flexible, lightweight design that's easy to move between rooms and floors.

- Offers full sit-to-stand adjustment
- Open architecture accommodates multiple configurations
- Independent screen positioning
- Adjustable back-tilt keyboard tray for comfortable typing

### CareFit Slim 2.0 LCD Cart

Serves as a versatile and space-saving point-of-care solution that easily adjusts to the ergonomic needs of a broad range of users.

- Compact frame fits at the bedside and small areas
- Sturdy platform supports large all-in-one computers
- and monitors up to 27"
- Large portfolio of accessories
- Optional drawer for additional storage

IMPLEMENTING ERGONOMIC EQUIPMENT CAN HELP IMPROVE DOCUMENTATION WORKFLOWS WHILE MOST IMPORTANTLY, CARING FOR NURSES' PHYSICAL AND MENTAL HEALTH.
