## **Ergotron StyleView Firmware Installation Instructions**

Warning: Installation of this firmware update will reset your cart to its default factory settings.

- The Master PIN, all User PINs\*, the Pharmacy PIN, and "alarm mute" setting will be reset to factory defaults.
- Any custom settings that have been applied to the cart will need to be reprogrammed.

\* If your PINs are deployed through StyleLink Enterprise, User PINs should not need to be reprogrammed.

## **Installation Requirements**

- Installation requires Microsoft Windows XP or later along with .NET Framework 4
- The computer used for firmware installation must have an active Internet connection.
- Download the firmware update (.zip) and extract its contents to a folder on your computer's desktop
- **Step 1:** Connect the drawer system to the computer via USB.

## Step 2: Open the SV43FirmwareTool.exe file.
