

ergotron®

moving you forward

- Helps reduce cart downtime with real-time insights into battery life and more through an online dashboard
- Software communicates directly with the cloud without access to patient records to keep information secure and support HIPAA compliance
- Provides real-time notifications to your IT staff when a battery requires service or attention to eliminate guesswork and unnecessary checks
- Enables IT staff to diagnose issues from a distance to help reduce support time instead of traveling across expansive campuses to locate a cart
- Based on your service level agreement, automated service notifications allow Ergotron to address an event as it occurs to remotely diagnose the situation and dispatch service and parts
- Free to all LiFeKinnex users
- Easy to install via www.ergotron.com/ekinnex without a software download on the workstation; quick to implement with installation per device in as little as one minute

eKinnex™

SOFTWARE

FOR

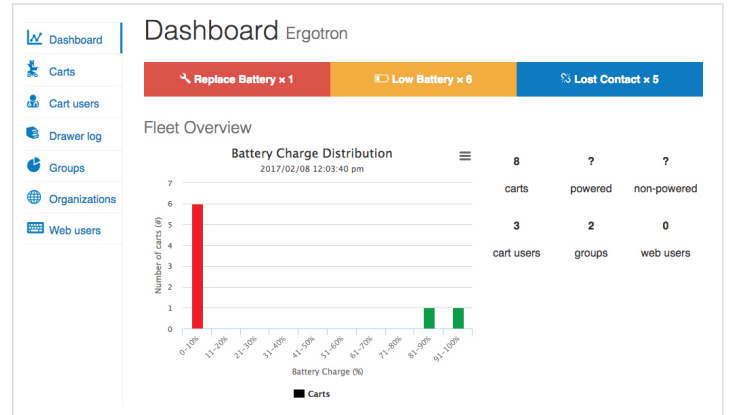

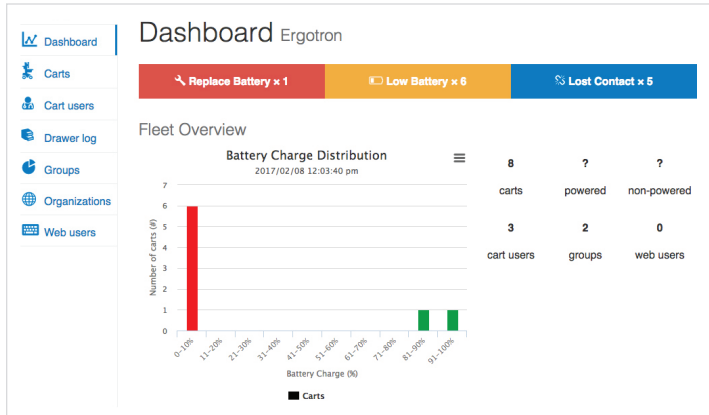

LiFeKinnex™

CLOUD-BASED FLEET MANAGEMENT

21st century, patient-centered healthcare needs 21st century technology and equipment. Rethink how you manage your medical carts with a LiFeKinnex Power System with eKinnex™ technology. This secure, web-based software hosted by Ergotron monitors battery life in real time, helping you proactively identify service and maintenance needs to maintain uptime, freeing up time for your IT team. The HIPPA-compliant portal keeps patient information safe while providing key insights to manage your fleet to meet the needs of fast-paced, modern care.

Detailed power system metrics

Historical power system data, including charge, load and current, lets you quickly identify usage patterns and potential issues.
