## Moving you forward

Research—and decades of customer feedback—shows that freedom to move while working leads to better health, greater productivity and a more positive attitude. At Ergotron, our mission has always focused on transforming static workplaces into dynamic environments that allow our customers to thrive. This means moving people forward by helping them eliminate constraints as they complete their work, care for others or apply themselves while learning or teaching.

Whether in office, home, healthcare or educational settings, Ergotron is respected for industry-leading, high-quality products that stand the test of time. Through creative, human-centered designs, we create products that expertly fit individual workstyles and ergonomic requirements. We are proud to hold more than 200 issued and pending patents for unique product innovations, and to have received countless accolades and awards.

As our product portfolio evolves, our offerings will always embody human-centered design principles and customer insights. Your input remains a crucial component in our product development process—and your loyalty tells us we’re continuing to move you in the right direction.

Thank you for your continued trust in the Ergotron brand.

WorkFit-TX
Premium ergonomics any way you work; ultra-low sit-stand workstation

- Delivers leading ergonomics sitting or standing with 17” (43.2 cm) of vertical height adjustment, plus 3” (6.2 cm) of keyboard adjustment
- Thoughtful, ultra-low design offers a sleek look and ergonomic fit for a wide range of users
- Large worksurface keeps office essentials nearby
- Drop-down tray places your keyboard at the most comfortable ergonomic position
- Offers infinite height adjustment points from an easy-to-find handle with no clicking
- Personalize your fit with multiple monitor riser locations and keyboard height and position
- Ships fully assembled with out-of-the-box installation that gets you standing faster
- Tested and guaranteed with a full five-year warranty

Ultra-low profile combined with height-adjustable keyboard tray creates a comfortable fit. Ergonomic keyboard tray tilts backward 10°.

Infinite, click-free height adjustment

WorkFit-TX
Sit-Stand Desktop Workstation
Black 33-467-921
(Not available in APAC, except Australia)

See technical specifications on page 49 or at ergotron.com
**WorkFit Corner**

*Designed with the corner in mind*

- Offers 15 inches (38 cm) of easy vertical adjustment so you can work sitting or standing without bumping into cube or office walls
- Sits flush to any cube or office corner thanks to a large notched worksurface that fits single and dual monitors
- Easily modifies an existing corner cube or office space without the cost of expensive professional installers
- Wide worksurface keeps notes, three-ring binders and papers in full view while working
- Largest keyboard tray of any WorkFit fits a variety of keyboard and mouse options
- Extremely stable and solid platform fits surfaces as shallow as 24” (61 cm)
- Ships fully assembled with out-of-the-box installation that gets you standing faster
- Tested and guaranteed with a full five-year warranty

**Add an accessory monitor mount kit to provide independent screen adjustment and clear more worksurface space.**

**Notched worksurface fits flush against any 90-degree cube or office corner desk to make the most of previously unusable space.**

**WorkFit Corner Sit-Stand Workstation**

Black 33-468-921 (North America, UK, NZ and AU only)

See technical specifications on page 49 or at ergotron.com
WorkFit-T, -TL and -TLE

Tabletop: Ultra simple and fully assembled sit-stand workstation!

- Stable workstation sits right on top of most surfaces 24" (61 cm) deep or larger
- Also works well in corner desk configurations; fits on surfaces as shallow as 19" (48 cm)
- Provides 15" (38 cm) of easy height adjustment
- System easily lifts straight up and down to minimize intrusion into the workspace
- Keyboard moves in tandem with the worksurface and is positioned 4.5" (11.4 cm) below it
- Set one or two monitors, or a monitor and laptop directly onto the workstation surface; optional monitor kits sold separately
- Ships fully assembled; no mounting or clamping required
- Five-year warranty: tested and guaranteed!
- WorkFit-TL has a larger keyboard tray and wider worksurface
- WorkFit-TLE features a large, drop-down keyboard tray and a convenient station for mobile devices

WorkFit-T
Sit-Stand Desktop Workstation
Black 33-397-085
White 33-397-062 (Americas, EMEA)

WorkFit-TL
Sit-Stand Desktop Workstation

White 33-406-062

WorkFit-TLE
Sit-Stand Desktop Workstation
Black 33-444-921

See technical specifications on page 49 or at ergotron.com

* The WorkFit-TLE may not be suitable for taller users due to the keyboard tray height when standing. For taller users we recommend either our WorkFit-T or WorkFit-TL. We also recommend the Ergotron monitor riser accessory to improve the ergonomic vertical positioning between the monitor and keyboard tray.
WorkFit-Z Mini
Compact sit-stand desk converter brings movement into your work day

- Turn your worksurface into a height-adjustable standing desk with one simple movement
- Offers a sit-stand solution with everything you need, like a phone and tablet slot for easy access to your devices
- Ideal for single monitors or notebooks
- Integrated cable management provides a mess-free workspace
- Features a soft, grey woodgrain finish that complements your current furniture instead of serving as an unwanted focal point
- Keyboard moves in tandem with the worksurface. Tray is positioned 4.3” (10.9 cm) below worksurface to maintain ergonomic spacing between screen height and keyboard
- Provides infinite, click-free adjustments up to 12.5” (32 cm) and supports up to 25 lbs (11.4 kg)
- No tools needed: Arrives assembled for an out-of-the-box, no-fuss solution that gets you standing right away

WorkFit-TS
Small footprint, big potential

- Designed for those who want a smaller option or who need a compact converter based on their corner or tight workspace
- Just place the desk on an open surface, mount the keyboard with thumb screws, sit or stand, and you’re ready to work
- Provides a comfortable fit with a keyboard tray that easily removes for laptops or crowded work areas—no tools required
- Compact design fits desktop surfaces as shallow as 15.7” (40 cm)
- Offers 10” (25, 5 cm) of smooth vertical lift to keep your space, your space
- Works with a single monitor arm or riser to customize your screen height
- Solid metal design creates a stable platform to avoid tipping or sway
- Tested and guaranteed with a full five-year warranty

See technical specifications on page 49 or at ergotron.com
WorkFit-S
Super stable and ergonomic: Easily clamps to the front of your surface

- Convert any surface into an adjustable-height sit-stand desk
- Clamps to the front of surfaces .47–2.4” (1,2–6 cm) thick
- Provides 18” (38 cm) of easy height adjustment
- Keyboard, display(s) and integrated worksurface easily lift together with a single, fluid motion using our patented Constant Force™ lift technology
- Keyboard placement is below desktop for ergonomic keyboard comfort
- Choose with or without worksurface

WorkFit-SR
A sturdy sit-stand workstation within the footprint of your desktop

- Convert any surface into an adjustable-height sit-stand desk
- Clamps to the rear of surfaces .47–2.4” (1,2–6 cm) thick
- Provides 18” (38 cm) of easy height adjustment
- Keyboard, display(s) and integrated worksurface easily lift together with a single, fluid motion using our patented Constant Force™ lift technology
- Generous worksurface 29.5” x 21.8” (75 x 55,4 cm)
- Premium furniture solution with refined aesthetics and superior material construction; all aluminum composition is extremely sturdy
- Standard worksurface depth provides generous focal distance between you and the screen
- Can accommodate taller users

WorkFit-D

Full-size desk: Spacious, ergonomic platforms for comfortable computing

- Premium stylish desk allows you to sit or stand as you work
- Patented Constant Force™ lift technology lets you easily adjust the desk height
- Spacious and solid worksurface
- Provides 20” (51 cm) of height adjustment
- Customize with a display mount and our Underdesk Keyboard Arm (97-582-009) for enhanced workflow efficiency
- Generous worksurface: 47.6” x 23.5” (121 x 60 cm)
- Other sit-stand desk options:
  WorkFit-C, petite footprint with mobility
  WorkFit-B, heavy-duty base to attach an existing surface

WorkFit-A

Most movement: Side or rear desk attachment is ideal for tight work spaces and corner configurations

- Height-adjustable arm moves the keyboard and monitor in one single, fluid motion using our patented Constant Force™ lift technology
- Easily sit or stand for a healthier way to work
- Swing entire computer system left, right, up or down to wherever you need it
- Push the arm out of the way when you need more desk surface
- Keyboard placement is below desktop for ergonomic keyboard comfort
- A variety of configurations are available to suit your style

WorkFit Electric Desk
Easy to use: letting you go from sitting to standing at the push of the button

- Quick adjustment: Zoom quietly with the push of a button, moving about an inch per second
- Comfortable worksurface: Adds valuable workspace and style with a waterfall beveled edge
- Touch screen: Display supports four programmable heights for a personalized, ergonomic fit
- Clean look: Rear cable management tray conceals cable chaos
- Avoid collisions: Sensor automatically detects file cabinets or other accessories
- Simple mounting: Worksurface includes five hidden spots for simple monitor arm mounting
- Accessory hook: Hang headphones, backpacks and parkas—or use it as a bottle opener to open a little fun

HX Desk Monitor Arms
Sleek post design: The perfect arm to add flexibility and superior ergonomics to your workspace

- Patented Constant Force™ technology provides effortless height adjustment and lift-and-pivot motion
- Extension and retraction motion increases viewing comfort; helps to reduce eye, back and neck strain
- A bow attaches directly to the arm for multi-monitor applications
- Rotate screens for portrait viewing to reduce document scrolling
- Folding arm frees up space in constrained areas
- Passes Ergotron 10,000-cycle motion test
- Dual hinge bow supports two 32” monitors; Triple hinge bow supports three 24” monitors; each includes a handle for easy positioning

Included:
- Grommet Mount
- Standard 2-piece Desk Clamp

HX Desk Monitor Arm
- Polished aluminum 45-475-026
- White 45-475-216
- Silver 45-475-231 (APAC)

HX Desk Dual Monitor Arm
- Polished aluminum 45-476-026
- White 45-476-216
- Silver 45-476-231 (APAC)

HX Triple Monitor Bow Kit*
- Polished aluminum 98-009-026
- White 98-009-216

* Upgrades HX Single or Dual arms to hold three displays; includes a handle for easy positioning

See technical specifications on page 52 or at ergotron.com
**MXV Desk Monitor Arms**

Sleek profile and modern design: Lightweight arm elevates your workspace with ergonomic functionality and style

- Saves valuable desk space with the cable management system and narrower profile—25% slimmer than the LX desk monitor arm
- Allows you to easily adjust your display with a light touch thanks to patented Constant Force™ technology
- Creates additional flexibility with a friction pivot that offers a 180° tilt
- Supports displays weighing 7–20 lbs (3.2–9.1 kg) and extends monitor(s) 22.2” (56 cm)
- Prevents your arm from making contact with the wall with a removable base rotation-stop that limits the range to 180°
- Arrives fully assembled
- Includes a 10-year warranty

### Included:
- Shallow 2-piece Desk Clamp
- Grommet Mount Accessory: For Desk Monitor Arm #98-110 For Desk Dual Monitor Arm #98-111

Tablet solutions

**Tandem Tablet Holder**

Position your tablet within your digital workflow. Our Tandem Tablet Holder accessory kit converts a VESA mount to position your tablet screen alongside or below your monitor. It is designed specifically for Microsoft® Surface™, but its open architecture also makes it compatible with many popular tablet brands and models from Apple®, HP®, Samsung®, Wacom and more. (Arm not included) #85-046-231

**Lockable Tablet Mount**

Convert a monitor mount to securely hold a tablet. The locking interface makes it the perfect solution for info kiosks, interactive ordering, public signage and more—anywhere theft deterrence is important. It’s compatible with popular tablets from many manufacturers. #45-460-026

**Universal Tablet Cradle**

Install your tablet or eReader alongside an LCD monitor or attach it directly to an Ergotron arm, pivot or stand. Adjustable contact points keep ports free. Cradle firmly grasps tablet with latch. #80-106-085

---

There are metabolic, cardio and mental impacts of sitting

- Muscle activity drops
- Metabolism slows
- Enzyme production lowers dramatically
- Insulin effectiveness drops
- Fatigue, distraction and stress increases
- Risk for anxiety and depression increases

---

**SIT. STAND. SWITCH.**

*EVERY 30 MIN*
HX Wall Monitor Arms
The perfect accessory to add flexibility and superior ergonomics to your monitor or TV

- Patented Constant Force™ technology provides effortless height adjustment and lift-and-pivot motion
- Extension/retraction motion and height adjustment capability promote user comfort
- Rotation-stop on base limits range to 180° and prevents monitor from making contact with wall
- Folding arm frees up space in constrained areas
- Passes Ergotron 10,000-cycle motion test, ensuring years of trouble-free height adjustment
- Cable management feature routes cables tightly under the arm and through the extension, out of the way
- Dual hinge bow supports two 32” monitors; Triple hinge bow supports three 24” monitors; each includes a handle for easy positioning

HX Wall Monitor Arm
Polished aluminum 45-478-026 (Americas)
White 45-478-216

Wall mount monitor arms

MXV Wall Monitor Arms
Modern, lightweight arm elevates your space with ergonomic functionality and style

- Offers a narrow profile—25% slimmer than the LX wall arm
- Attaches directly to sturdy vertical surfaces with a wall mount bracket
- Allows you to easily adjust your display with a light touch thanks to patented Constant Force™ technology
- Creates additional flexibility with a friction pivot that offers a 180° tilt
- Supports displays weighing 7–20 lbs (3,2–9,1 kg) and extends monitor 24.6" (62 cm)
- Keeps your arm from making contact with the wall with a base rotation-stop that limits the range to 180 degrees
- Arrives fully assembled
- Includes a 10-year warranty

LX Wall Monitor Arms

LCD and keyboard arm design provides unparalleled range of motion

- Designed with patented Constant Force™ technology for easy positioning with just a light touch
- Extension/retraction motion capability promote comfort for multiple users
- LX Keyboard Arm is a stable platform with a back-tilt tray to keep wrists in a neutral, ergonomic position
- Folding arm frees up space in constrained areas
- Cable management clips on the under side of the arm route and hide cords
- Passes Ergotron 10,000-cycle motion test, which ensures years of trouble-free height adjustment
- 10-year warranty
- Sit-stand models are available, so users can choose to sit or stand while working

LX Arms are ideal for healthcare and other multi-user environments because of their wide range of motion and ability to fold up within inches of the wall when not in use.

### MX Wall Mount Arm

Simple and strong with an attractive finish

MX Mini Wall Mount Arm is an ideal mount for lightweight displays, offering a slim profile and expansive height adjustment range. Plus, full tilt, pan and rotation capability.

MX Wall Mount LCD Arm supports larger monitors and all-in-one computers.

Both wall mounts fold up to just inches from the wall.

Charging systems

The quickest charge for your tablets and laptops

Ergotron PowerShuttle technology is a patented, embedded control system that monitors incoming current from the wall outlet and distributes it to microprocessor-controlled outlets inside the charging cart to quickly, efficiently and safely charge your devices.

- PowerShuttle charges up to 40% faster than competitors’ round-robin charging systems
- Doesn’t require manually switching between outlets or adjusting timers
- Limits inrush current—the instantaneous current draw when you first power on
- Prevents nuisance tripping of site circuit breakers and electromagnetic interference with other devices
- Keeps you safe from arc at the plug and hazardous touch currents

Ergotron charging cart strengths

- Sleek, compact designs with a small footprint
- Universal design fits all devices: tablets, Chromebooks, laptops and more
- Separate locking IT area
- Durable, solid construction with locking doors
- UL or ETL certified and tested for safety to UL 60950 standard
- Managed and unmanaged versions

For more in-depth information about PowerShuttle technology, visit www.ergotron.com/company/powershuttle-technology
Why should you care about safety certification for charging systems: the risks of using non-certified products

- Critical materials are not fire resistant—This is a fire hazard if a battery or electrical fault occurs.
- Electrical hazards are not physically enclosed—Shock hazards exist if energized circuitry can potentially be touched either directly or if exposed metal is not safely grounded or properly isolated. Fire hazards can exist if the enclosure can potentially let out flames or molten metal if an electrical fault occurs inside of the enclosure.
- Mechanical hazards are not mitigated—If not properly tested and certified, pinch points, tip, crush or cut, sharp edges, and moving parts can injure users.
- Equipment ratings must meet National Electrical Code—Non-evaluated systems may exceed allowable load limits causing electrical arcing, facility problems and/or interaction and interference with other equipment.
- No manufacturing factory quality surveillance—Product quality and consistency must be managed and ensured.

How PowerShuttle® works

1. A sensor constantly measures the current coming into the cart from the wall outlet. This helps determine the geographic region where you are (various current limits are used throughout the world) and applies the current limit that is specific to your region.

2. PowerShuttle’s inrush protection uses microprocessor controls to gradually increase current to the devices as the cart is initially switched on or plugged in, to prevent spikes.

3. As devices charge, PowerShuttle stays vigilant with a sensor continuously monitoring the amount of current from the wall outlet into the cart.

4. If the current from the wall outlet is about to exceed the cart’s regional limit, PowerShuttle immediately divides the device outlets into groups. This “measure and divide” process (steps 3 and 4) will repeat until all outlets can be on at the same time.

5. As devices reach full charge, they’ll draw less and less current until all device outlets can be “on” to minimize charge time.

Education—Empowering smart learning
LearnFit™ Sit-Stand Desks
Transform classrooms into active learning environments

Studies show that moving more in the classroom—even just standing—has a positive impact on student health, classroom engagement and academic performance. With LearnFit, students can:

- Personalize how they learn by using the hand lever to easily raise or lower the desktop
- Adjust the desktop height for comfortable views to help reduce neck strain
- Roll the desks into different classroom configurations to match lesson plans
- Work on a stable, durable worksurface thanks to locking casters
- Keep essentials close with an included tablet slot, water bottle holder and backpack hook
- Get standing faster with easy assembly
- Store additional supplies with an optional LearnFit Storage Bin with three separate compartments

LearnFit allows schools to invest in movement-friendly furniture at a price point that’s competitive to traditional, stationary student desks.

Healthy metabolism. Healthy performance.
Higher heart rate, increased calorie burn and great insulin effectiveness translates to more engaged students. "Standing actually improved attention, on-task behavior, alertness and classroom engagement."1 This sustained healthy metabolism leads to greater everyday classroom focus, which has a positive effect on cognition and test scores.2

1 The Impact of Stand-Biased Desks in Classrooms on Calorie Expenditure in Children, Benden, Blake, Wendel, Huber, published in American Journal of Public Health, August 2011
2 Institute of Medicine, 2013 (further reading), Centers for Disease Control & Prevention, 2010

TeachWell®
Mobile Digital Workspace
A compact technology hub consolidates all your technology tools onto a single mobile platform: laptop, keyboard and mouse, portable document camera, projection device and more. Several optional accessories are available to enhance functionality.

Our new line of slim and nimble medical carts

CareFit Slim LCD and Laptop Cart: Fits your people, workflow and environment

Short, tall or average clinicians can now work comfortably and effectively—no matter what their stature. Help all of your caregivers thrive with an expansive vertical range that easily adjusts to the ergonomic needs of the broadest range of users. The lightweight design makes it easy to move wherever your work takes you.

The slim depth and small footprint allows you to use it as a point-of-care solution at a patient’s bedside, in a hallway or any other area. When not in use, it fits tightly against a wall to free up valuable space.

CareFit Slim LCD Cart
- Fits large all-in-one computers and monitors
- Very low profile; ultra-compact footprint
- 17.5” (44.5 cm) of sit-stand lift
- 5” (13 cm) independent monitor height adjustment; tilt and swivel
- Slide-out keyboard tray
- Includes printer and accessories shelf

CareFit Slim Laptop Cart
- Fits small laptops and two-in-ones
- Very low profile; ultra-compact footprint
- 24.6” (62.5 cm) of sit-stand lift
- Includes pull-out cable storage tray and power brick holder

Spacious worksurface
Mount accessories
Included in one-drawer model
Scanner holder
Slide-out keyboard tray
Printer and accessories shelf

Add security with the CareFit Slim Laptop Security Bracket accessory to keep your laptop from sliding, while helping protect important equipment. (24-757-250)
Our full line of customizable medical carts

**STYLEVIEW™**

Your cart. Your way.

Choose the StyleView medical cart that best meets your caregiving needs, style and workflow.

StyleView carts are designed to include all the features that caregivers have asked for, with all the open architecture and quality construction that IT departments require.

- Effortless sit-stand height adjustment using patented Constant Force™ technology
- Independent screen positioning and an adjustable back-tilt keyboard tray for comfortable ergonomics
- For patient, caregiver and facility safety, entire carts are tested and fully certified

### LIGHT-DUTY DOCUMENTATION CARTS

- **StyleView S-Tablet Cart, SV10** for Microsoft Surface
- **StyleView Tablet Cart, SV10**
- **StyleView Laptop Cart, SV10**
- **StyleView 40 and 41 Series** Laptop version shown Non-powered

### POINT-OF-CARE DOCUMENTATION & MEDICATION DELIVERY CARTS

- **StyleView 42 Series** LCD pivot version shown Powered with SLA or LiFe battery
- **StyleView 42 with Electric Lift** LCD arm version shown Powered with LiFe battery (North America only)
- **StyleView 43 Series** LCD arm version shown Non-powered Pre-configured with drawers
- **StyleView 44 Series** LCD pivot version shown Powered with SLA or LiFe battery Pre-configured with drawers
- **StyleView Telemedicine** Dual monitor version shown Powered with SLA battery Pre-configured with storage for telemedicine applications

See technical specifications on page 58 or at ergotron.com
Determine your application:
- **Point-of-care carts** facilitate access to medical records and provide medication delivery anywhere in the facility.
- **Telehealth carts** designed for telemedicine and videoconferencing anywhere in the facility.

Determine the primary use:
- Access to medical records and the delivery of medication
- Access to medical records and medication delivery/management with controlled access
- Mobile deployment of tablets or laptops

Choose display mount type: LCD arm, LCD pivot, laptop, tablet or Microsoft Surface

Choose powered, non-powered or add-on power upgrades:
- Lithium Iron Phosphate (LiFe), sealed lead acid (SLA), non-powered and power upgrade options

Choose drawers, storage & accessories: Drawers, bins, sani-wipes holder, scanner shelf and more

Add a service program: Extended global service programs protect your investment, ensure optimal product performance and provide additional support and benefits, such as:
- Site readiness • Fast, efficient product installation and integration
- Preventive maintenance and extended warranties • Improved asset management
- Enhanced in-house product expertise • Equipment audit and health assessment
- Next-business-day service contracts • Annual contracts and planned services
Choose from multiple drawer options:

One drawer:
1 primary drawer, single

Two drawers:
1 primary drawer, single
   1 supplemental, single

Four drawers:
1 primary drawer, triple
   1 supplemental, triple

Six drawers:
1 primary drawer, triple
   1 supplemental, triple

Nine drawers:
1 primary drawer, triple
   2 supplemental, triple

Three drawers:
1 primary drawer, single
   2 supplemental, single

Two drawers:
1 primary drawer, double

One tall drawer:
1 primary drawer, single tall

Two tall drawers:
1 primary drawer, double tall

Fifteen drawers:
1 primary drawer, triple
   4 supplemental, triple

Choose from manual key lock drawers or electronic locking drawer systems (with PINs), which enable secure and efficient management of non-controlled medication, reducing the chance for errors. Also supports “pharmacy mode,” allowing all drawers to be unlocked simultaneously.

LiFeKinnex™ Power System

Power LiFe-changing care

Safely power your medical carts to last longer so they're ready when you need them most. Using Lithium Iron Phosphate battery chemistry (LiFe), LiFeKinnex charges carts quickly without the risk of overcharging or overheating associated with other battery types. Designed for multiple workflows, the power system allows caregivers to plug in the unit to quickly charge the cart, even during use, or use the optional LiFeKinnex 4-Bay Charger to keep the cart moving with a hot swap.

- Safe battery chemistry
- Quick charging time
- Longer battery cycle life
- Easy to connect
- Simple attachment system
- Patent pending

Compatible with StyleView 4X carts, StyleView 10 light-duty carts, and CareFit Slim LCD and laptop carts

LiFeKinnex Battery: #98-246
LiFeKinnex 4-Bay Charger: #98-258

More add-on power solutions for non-powered StyleView carts

SV LiFe Power System Upgrade
Manufactured by Scott Clark
AC 330Wh

- High capacity, flexible, portable
- Ultra-fast, built-in charging on board
- Powers everything on the cart
- Lithium-Iron Phosphate is the safest battery chemistry
- State-of-charge LED indicators
- Availability:
  - US/CA/MX #97-837
  - UK/HK/MY/SG #97-893
  - Saudi/UK #97-895
  - Saudi/EU #97-896
  - EU #97-894

SV DC Power System
Manufactured by Amstron
DC 300Wh

- Low-cost DC power
- Small form factor
- On-board, all-in-one charger
- Selectable output voltage
- Mounts on the front or back
- Laptop version #97-943
- LCD+CPU version #97-942
- Remote User Interface #97-953

(Not available in APAC; country-specific power cords sold separately)

Cloud-based fleet management for StyleView carts

StyleLink SKY

StyleLink SKY harnesses the power of the cloud to monitor and manage your fleet of StyleView carts using a secure, web-based software application coupled to an endpoint client on the carts’ local machines.

StyleLink SKY is an intuitive and scalable software application that provides real-time insight into the status and health of your entire fleet of StyleView carts. A self-monitoring version of the software is available at the purchase of the cart.

- Secure, web-based software application that monitors and manages your fleet of StyleView carts
- Seamless and centralized fleet management provides comprehensive cart data to significantly reduce or eliminate cart downtime
- Monitoring helps improve battery life expectancy
- Provides real-time insight into usage patterns, drawer access, battery charge/life and more
- Software operates separately from patient records to reduce concerns with HIPPA compliance
- Easy to get, fast to implement
Where productivity meets style

Light-duty, point-of-need carts for laptop, tablet and Surface devices

- Easily move mobile devices to the point of need
- Petite size fits nicely in small exam rooms and offices
- Lightweight and agile, carts glide effortlessly across various flooring types
- Carts offer 15" (38 cm) of vertical height adjustment
- Keyboard and display can be properly positioned for comfortable data entry and screen viewing

Expanding broadband-enabled telemedicine is helping to solve by:

- Reducing time, costs and in-person visits
- Providing remote monitoring of patients’ vital signs and conditions
- Facilitating the sharing of critical health information for diagnosis and treatment

A typical 10-hour shift:

- Heart Disease (Y/N):
- Kidney Disease (Y/N):
- Epilepsy (Y/N):
- Cancer (Y/N):
- Stroke (Y/N):
- Call Light (Y/N):
- Phone (Y/N):
- Bed Control (Y/N):
- Orientation TV (Y/N):
- Diabetes (Y/N):
- Medical History:
  - Pneumonia:
  - Flu:
  - Vaccination

Here are challenges that keep nurses from spending more time on patient care and changes that can help:

**Physical burdens…**

- 3rd highest reported injury rate of any profession
- Up to 5 miles spent walking during a 10-hour shift
- 48% more likely to have wrist, back and ankle sprains or strains
- 53% of injuries reported were due to overexertion

**…and equipment relief**

The use of ergonomic carts can improve comfort, safety, productivity and satisfaction. Make sure the cart:

- Will allow comfortable shift access whether sitting or standing (the true ergonomic sit-stand range is 20")
- Is adjustable to suit the broadest range of caregiver access across multiple shifts
- Has a long battery life and battery management options to help keep cart active during long shifts
- Has ultra-smooth gliding casters to travel easy on all types of surfaces

**New technology problems…**

- Moving from paper to electronic record keeping can improve accuracy and efficiency, but what is commonly missed are the workflow implications for nurses.

Nurses are being required to learn emerging technologies on top of existing workloads, while still maintaining patient care requirements.

**WARNING**

- 42 minutes of each 8-hour shift is spent resolving operational failures
- EHRs have added 3 hours of computer work to 12-hour shifts
- Average tablet battery life is 8.69 hours yet average nursing shifts are between 8-12 hours

- Have computers in each exam room. Studies show patients are more satisfied with their care when computers are in the room.

- Employ the Triangle of Care, using computer displays to bring patient and caregiver together.

- Make tablets more accessible with communal charging stations.
Carts configured to support remote patient care

Open architecture
Allows for easy integration of standard equipment

Lots of connectivity
A total of 5 USB ports are integrated into cart; 1 ethernet port is available on the side of the head unit

Everything you need
Camera and Codec/CPU support, secure and ample storage, connectivity and power outlets

StyleView quality
Hospital-grade construction, ergonomic and secure

Worldwide availability
Safety certified
Entire cart and power system is certified to UL/EN/IEC 60601-1 and CAN/CSA C22.2 No.601.1 M90

Large, configurable bin provides 3 USB ports, adjustable dividers and secure storage for several diagnostic devices with cables
Cart designed for neat and compact cable management

Camera shelf holds web or video conferencing camera

Dual monitor configuration shown
Also available as single monitor and back-to-back monitor configurations

Codec/CPU Holder

Medical-grade power cord

Two additional USB ports are accessible on the back side of bin for connecting additional devices

Rechargeable SLA (Sealed Lead Acid) battery provides dependable, safe and low-cost power

See ergotron.com for information on StyleView Telepresence Carts and Upgrade Kits
Secure medication delivery

**StyleView™ Transfer Cart**
A cart designed to streamline workflow

- Securely stores, transports and dispenses medications and supplies
- Holds up to 120 small or 40 large drawers, accessible from either side of cart; 36 shelves are removable or repositionable
- Supports 20 or more StyleView carts depending on drawer configuration
- Top cover supports 25 lbs (11.3 kg) and its
- Secure: doors unlock electronically using programmable 5-digit PIN or via manual lock
- Premium, 5" (13 cm) swiveling casters move the cart with ease over thresholds and any floor type

#24-421-062
Wall mounts for healthcare

**StyleView™ Sit-Stand Combos**
Worksurface with pull-out keyboard tray enhances caregiving

- Patented Constant Force™ lift-and-pivot motion technology provides premium 25” (63.5 cm) LCD height adjustment, portrait-to-landscape rotation and 30° tilt
- Durable, easy-to-clean exterior composed of aluminum and high-grade plastic
- Integrated mouse and barcode scanner holder
- Fold-down worksurface/keyboard tray to support workflow needs. Worksurface is 22.75”W x 10.6”D (57,8 x 26,9 cm); keyboard tray is 18.6”W x 9”D (47,2 x 22,8 cm)
- Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position during data entry; slide-out mouse tray
- Clean, concealed and neat routing of cables through the expansive cable management system
- Extend LCD and keyboard up to 43” (109 cm) from wall; fold equipment back out of the way when not in use. With worksurface in storage position, system depth is as little as 8” (20,3 cm). With keyboard in storage position, system depth is as little as 12” (30,5 cm)
- Optional Extender Arm increases range of motion for even greater reach

Free up valuable space

Attach your LCD and keyboard to free up space. The wall-mounted 200 Series Combo Arm features 3-point telescoping motion, providing greater reach to bring the system to where it is needed.

Add greater range of movement to your LCD display with the Neo-Flex Wall Mount Lift. Its slim profile makes it perfect for areas where space is at a premium.

Our Neo-Flex Dual Monitor Wall Mount and Keyboard Mount has tilting dual monitors to reduce glare. Folds up to just 5” (13 cm) from the wall when not in use.

Visit ergotron.com for complete information on LX Wall Mount Systems

Neo-Flex® and 200 Series

Enhances interaction between the caregiver, patient and the patient’s data

- Sit-stand model provides 20” (51 cm) height range allows users to switch between sitting and standing positions
- Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position to increase comfort
- Keyboard platform is very stable for extensive data entry and tested to be 3 times more rigid than other keyboard arms
- Systems fold up to just inches from the wall
- Secure installation: locking connections between arm, extension and base
StyleView™ sit-stand wall mounts

**StyleView Enclosures**

Secure, compact and enclosed

- Smooth vertical adjustment
- Stable, slide-out keyboard supports extensive data entry
- Folds up into a slim, compact unit when not in use
- Ergonomic design lets users sit or stand throughout the day
- Keyless locking mechanism protects patient data
- Unique cable management system conceals and organizes the cords

---

**OSHPD**

Office of Statewide Health Planning and Development

Ergotron’s wall mount products received OSHPD OPA Pre-approval numbers for mounting in hospitals and healthcare facilities throughout California on October 13, 2009. These standards help ensure patient safety during an earthquake and help make it possible for facilities to continue to function and care for the injured after an earthquake.

1-year warranty on all electronic components (excludes AA batteries)

To learn more about Ergotron’s commitment to OSHPD compliance visit www.ergotron.com
**StyleView Vertical Lifts**

Compact ergonomics with an extremely low profile

- Models designed for either patient rooms or high-traffic areas
- Slide-out keyboard provides comfortable data entry
- In a patient room, the pan of the keyboard and display supports patient interaction
- Units fold within just inches of the wall
- Sit-stand models move vertically 18" (46 cm) with a single motion; entire system (monitor, keyboard and mouse) move together

LCD SIZE IS APPROXIMATION. DIMENSION IS DIAGONAL MEASUREMENT OF SCREEN. LCD SIZE MAY BE EXCEEDED AS LONG AS SCREEN WEIGHT DOES NOT EXCEED MAXIMUM WEIGHT CAPACITY OF THE MOUNT.
OEM opportunities
Using our proprietary technology, Ergotron serves OEM customers that are among the world’s largest selling brands.

Environmentally responsible
Your Ergotron mounting solution complies with all international environmental regulations related to its design, manufacture and packaging.

Manufacturing excellence
Certified to ISO 9001:2008. This certification demonstrates Ergotron’s commitment to employing best practice procedures in our facilities.

Quality tested
Our products undergo a testing regimen that is unmatched in the industry. Ergotron strives to provide the highest levels of trouble-free field performance and unsurpassed product longevity, delivering peace of mind to both resellers and end users.

Video conferencing solutions

Neo-Flex® Mobile MediaCenters
Mobility with versatility: From the boardroom to the surgery center

- Stretch your investment by supporting a range of projection and videoconferencing needs throughout the facility
- MediaCenters feature ease of mobility, 90° display rotation, 20” (51 cm) of effortless height adjustment and 20° independent display tilt
- Optional Camera Shelf Kit creates a mobile video conferencing solution that everyone can use

Display Compatibility Guide

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

LCD Size in all charts is approximation only. Use LCD Weight as guide for choosing mounting solution; exact capacity depends on thickness of display. Hole Mounts are width x height. Compatibility is predicated on the assumption that displays are VESA compliant (hole mount is centered on display's center of gravity.)
From expert product installation and preventive maintenance to next-day on-site service, Ergotron offers a variety of service packages to meet your organization’s ongoing product support needs.

The all-inclusive approach to our service packages makes them a predictable expense for your organization. Packages are available pre- and post-sale.

A range of services are available:
- Installation and integration
- Next-business-day on-site service
- Preventive maintenance
- Extended warranties
- In-warranty and post-warranty repairs
- In-depth product training on site
- Equipment audit and health check

Our certified service technicians can help you:
- Seamlessly integrate and deploy products, including integrating hardware, making proper adjustments and managing cables
- Prevent costly downtime
- Alleviate burdens on your internal resources

Services are available for:
- LearnFit desks
- Charging systems
- WorkFit sit-stand workstations
- Desk and wall mount monitor arms
- Powered desks
- StyleView medical carts and wall mounts
- Mobile workstations
